WEDDING INFO & PRICING

A Moment Happens in a Flash...its Photograph Lasts a Lifetime.

.....Why Choose LB PHOTOGRAPHY?

- **Confidence!** I don't just push a button and hope. I control the camera settings & lighting so dress details aren't blown out, background isn't mucky, no blurry action shots, no harsh shadows, correct color, etc.
- **Education & Experience** over 250+ weddings photographed. Associate Digital Graphics/Photography, PPA, PPO, LSPP, After Dark+.
- **Mix of Lighting Tools & Techniques** Natural light isn't perfect or we could all be great photographers. Having a photographer good with natural light AND flash is a necessity. Start to finish, both inside & out.
- **Professional Storybook INCLUDED!** Quality Keepsake. Custom designed! No extra cost later. No hassle for you to create your own.
- **LOTS of Equipment** – backups / lens choices / lighting options
- **You Matter 110%** - Photography is not just a hobby but my career and passion... every bride and groom, every photograph is important!

- **Detailed Touchups** - I see many photographers skip edits like shiny faces / skin rolls, etc I ensure these fixes are made. I pose / light for best results, then edit for excellence!

Edit examples: balding spots, shinyfaces, skin rolls, chin tucks, windy hair, wrinkly shirts, etc.
